*Amphitheater Hotel - Architectural Rendering (top) and construction of concrete frame Hotel Main Building Structural Model (below)*

The Amphitheater Hotel will be a major attraction in the Blue City Resort. This five star hotel, located at the coast of the resort, includes - apart from the main building - a large number of suites surrounding a water pool complex, tennis courts and all the amenities of a luxury hotel. Its gross building area exceeds 28000m<sup>2</sup>.
